NOTE: The Board approved for an update to the committee structure at the Board meeting on 20 May 2023. From 1 July 2023, the Finance, Audit and Risk Management Committee was replaced by the Finance, Audit and Investment Committee. The NDSS Governance Committee was replaced by a Risk, Quality and Compliance Committee. There were updates to the membership of those Committees effective 1 July 2023.

Group Chief Executive Officer (appointed November 2021)

Justine Cain

BSc (Psychology), LLB ANU. MAICD

Justine commenced in the role of Group Chief Executive Officer in November 2021. Ms Cain has held senior executive and Board roles with listed, privately owned, private equity backed and not-for-profit organisations in the health, human services and general insurance sectors. Justine is currently on the Boards of UnitingCare Queensland and Diabetes Australia Research Limited. Justine's expertise spans transformational leadership roles, strategy development and execution, customer-centric leadership, largescale health service delivery, government relations, advocacy and complex stakeholder management. Justine has a strong understanding of the broad health, human services and aged care sectors and is committed to achieving equity in access to health services, population health improvement and judicious use of funding. Justine holds a Bachelor of Laws and a Bachelor of Science from the Australian National University.

Company Secretary

Emily Wooden, Chief of Corporate Services for the Company, held the Company Secretary role since 4 June 2024.

Hanna Myllyoja (resigned on 4 June 2024)

BA., LLB Grad.Dip.Legal Practice, Solicitor New South Wales.

Purpose

We are dedicated to reducing the incidence and impact of diabetes on people, health systems and society. Our long-term vision is a world free from diabetes.

Strategy for achieving the purpose

During the 2023-24 financial year, Diabetes Australia progressed its Diabetes Australia Group Strategic Plan 2023-2027. The Strategic Plan outlines ambitious goals to:

The Strategic Plan outlines ambitious goals to:

- prevent people from developing type 2 diabetes;
- support people with diabetes to live long and live well;
- reduce the impact of diabetes on people living with or at risk of diabetes, on health systems, and on society; and
- find a cure for all types of diabetes.

The Strategic Plan establishes a strong change agenda. To change the now – to help people with diabetes to live their best lives with better access to support and treatments. And to change the future – for the millions of Australians and future generations who will develop diabetes if we don't act.

Principal activities

Diabetes Australia is the national organisation supporting all people living with or at risk of diabetes.

Diabetes Australia works in partnership with people living with or at risk of diabetes, their families and carers, health professionals, researchers, funders, other diabetes organisations and the community to positively change people's lives.

Diabetes Australia's core focus areas are:

- Being a thought leader, amplifying the voices of the diabetes community and championing the diabetes cause to drive change.
- Advocating and delivering on priorities that have the biggest impact on changing people's lives and the health system.
- Collaborating locally, nationally and internationally; connecting lived experience with health professionals and research.
- Developing and delivering trusted diabetes services, locally and nationally.
- Leading the agenda, growing funding for and commissioning research.

Principal activities (Continued)

Diabetes Australia works to bring about change, by providing a national voice and leadership, while maintaining strong local community connections and engagement.

Diabetes Australia Ltd and its Controlled Entities Directors' report 30 June 2024

Contributions on winding up

The Company is incorporated under the Corporations Act 2001, registered under the Australian Charities and Not-for-profits Commission Act 2012 and is a Company limited by guarantee.

The Diabetes Australia Constitution was amended on 28 January 2021, by unanimous vote of the member organisations at that time, to support a staged unification process in which member organisations could choose to merge with Diabetes Australia. That process remained ongoing in FY24. The Company's Board continues to manage legacy subsidiary entities as relevant including progressing towards wind down where applicable.

On winding up members undertake to contribute up for \$50 for persons who became a member prior to 28 January 2021, and \$10 for persons who become members after that date.

Operating results

The Diabetes Australia Group consolidated result for the year was an operating surplus of \$7,139,864 (2022-23: deficit of \$1,639,287). The surplus was largely due to \$3,800,219 in investment income and unexpected beguests received.

Events after the reporting date

On 20 August 2024, Penelope Palmer was appointment as a Company secretary of the Company.

No other matter or circumstance has arisen since 30 June 2024 that has significantly affected or may significantly affect the entity's operations.

Environmental issues

The Company's operations are not regulated by any significant environmental regulations under a law of the Commonwealth or of a state or territory of Australia.

Indemnification and insurance of officers and auditors

The Company indemnifies directors and officers consistent with law.

The Company has paid premiums to insure each of the directors of the Company against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of director of the company, other than conduct involving a wilful breach of duty in relation to the company.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

This report is made in accordance with a resolution of directors.

On behalf of the directors

Andrew Rutherford

Director, Chair and President

Note 1. Material accounting policy information

The accounting policies that are material to the consolidated entity are set out either in the respective notes or below. The accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with the Australian Accounting Standards - Simplified Disclosures issued by the Australian Accounting Standards Board ('AASB'), the Australian Charities and Not-for-profits Commission Act 2012 and Charitable Fundraising Act 1991 (NSW) and associated regulations and the Corporations Act 2001, as appropriate for not-for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 26.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Diabetes Australia Ltd ('company' or 'parent entity') as at 30 June 2024 and the results of all subsidiaries for the year then ended. Diabetes Australia Ltd and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Note 1. Material accounting policy information (continued)

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Income tax

As the consolidated entity is a charitable institution in terms of subsection 50-5 of the Income Tax Assessment Act 1997, as amended, it is exempt from paying income tax.

Inventories

Stock on hand is stated at the lower of cost and net realisable value. Cost comprises of purchase and delivery costs, net of rebates and discounts received or receivable.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, its carrying value is written off.

Financial assets at amortised cost

A financial asset is measured at amortised cost only if both of the following conditions are met: (i) it is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and (ii) the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

Investments

Investments includes non-derivative financial assets with fixed or determinable payments and fixed maturities where the consolidated entity has the positive intention and ability to hold the financial asset to maturity. This category excludes financial assets that are held for an undefined period. Investments are carried at amortised cost using the effective interest rate method adjusted for any principal repayments. Gains and losses are recognised in profit or loss when the asset is derecognised or impaired.

Note 1. Material accounting policy information (continued)

Impairment of financial assets

The consolidated entity recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the consolidated entity's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets mandatorily measured at fair value through other comprehensive income, the loss allowance is recognised in other comprehensive income with a corresponding expense through profit or loss. In all other cases, the loss allowance reduces the asset's carrying value with a corresponding expense through profit or loss.

Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST receivable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Provision for impairment of inventories

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The level of the provision is assessed by taking into account the recent sales experience, the ageing of inventories and other factors that affect inventory obsolescence.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Estimation of useful lives of assets

The consolidated entity determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Goodwill and other indefinite life intangible assets

The consolidated entity tests annually, or more frequently if events or changes in circumstances indicate impairment, whether goodwill and other indefinite life intangible assets have suffered any impairment, in accordance with the accounting policy stated in . The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of assumptions, including estimated discount rates based on the current cost of capital and growth rates of the estimated future cash flows.

Impairment of non-financial assets other than goodwill and other indefinite life intangible assets

The consolidated entity assesses impairment of non-financial assets other than goodwill and other indefinite life intangible assets at each reporting date by evaluating conditions specific to the consolidated entity and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Employee benefits provision

As discussed in note 14, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Accounting policy for revenue and other income recognition

The consolidated entity when assessing revenue and other income applies AASB 1058 Income of Not-for-Profit Entities. AASB 1058 requires the consolidated entity to assess which standard is to apply. The main standards being; AASB 9 Financial instruments, AASB 15 Revenue or AASB 1058 Income of Not-for-Profit Entities.

AASB 1058 Income of Not-for-Profit Entities is recognised on receipt. This is generally applicable for fundraising income.

Revenue from contracts

a) Contracts that contain clauses that meet the definition of AASB 9 Financial Instruments

Contracts that meet the definition of Financial Instruments such as where they contain termination for convenience clauses is recognised as the consolidated entity spends, or has provided the services depending on the terms on the contract.

b) Revenue from contracts with customers – AASB 15 Revenue

Revenue is recognised at an amount that reflects the consideration to which the consolidated entity is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the consolidated entity: identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Note 3. Revenue and other income (continued)

Variable consideration within the transaction price, if any, reflects concessions provided to the customer such as discounts, rebates and refunds, any potential bonuses receivable from the customer and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are recognised as a refund liability.

Revenue from contracts with customers recognition is detailed below:

i) Sale of goods

Revenue from the sale of goods is recognised at the point in time when the customer obtains control of the goods, which is generally at the time of delivery.

ii) Rendering of services

Revenue from a contract to provide services is recognised over time as the services are rendered based on either a fixed price or an hourly rate.

iii) Grants

Grant revenue is recognised in profit or loss when the consolidated entity satisfies the performance obligations stated within the funding agreements. If conditions are attached to the grant which must be satisfied before the consolidated entity is eligible to retain the contribution, the grant will be recognised in the statement of financial position as a liability until those conditions are satisfied.

iv) Commercial partnerships

Commercial partnerships are recognised when the contract outcome can be reliably measured, control of the right to be compensated for the service has been attained and the stage of completion can be reliably measured.

v) Diabetes Australia Member Organisation/Parent contribution fees

Revenue from Diabetes Australia Member Organisation/Parent Contribution fees are recognised upon the due date in accordance with the Parent's constitution.

vi) Fundraising

Fundraising income is recognised on receipt, unless there are specific performance obligations identified, in which case they are accounted for consistent with Revenue from contracts with customers.

Note 4. Other income

	Consolidated	
	2024 \$	2023 \$
Net foreign exchange gain	-	51,452
Dividend income	954,594	445,301

Other income	182,041	6,237
Other income	3,346,221	2,493,242

Bequest income

Bequests and donations are recognised on receipts basis.

Rental income

Rental income arising from operating leases are accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss and other comprehensive income.

Note 4. Other income (continued)

Dividend income

The consolidated entity recognises dividends and distributions in profit or loss only when the consolidated entity's right to receive payment is established.

Interest income

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Investment gains and losses

The changes in the fair value of investments including any gains or losses on the disposal of investments are recognised in profit and loss.

Volunteer services

The Group has elected not to recognise volunteer services as either revenue or other form of contribution received. As such, any related consumption or capitalisation of such resources received is also not recognised.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

Agents' remuneration-National Diabetes Services Scheme (NDSS)

The National Diabetes Services Scheme (NDSS) is an initiative of the Australia Government administered by Diabetes Australia and delivered to people with diabetes through state and territory diabetes organisations, as NDSS Agents. The scheme is supported by two Health Professional Agents which are the key national organisations dedicated to diabetes in Australia.

The NDSS Agent remuneration is provided to support the delivery of NDSS National Programs and Services. The National Programs and Services are nationally consistent services provided to Registrants that maximise their capacity to manage their diabetes, this includes mechanisms that expand consumer engagement and self-management including access to Registration cards and Starter Packs, telephone support, online support, information and resources, education and other activities such as education of health professionals. The Health Professional Bodies provide a broad range of advice and assistance to assist Diabetes Australia and the Commonwealth deliver the NDSS services

	23,167,794	26,949,843	

Accounting policy for cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Note 7. Trade and other receivables

	Consolidated	
	2024 \$	2023 \$
Current assets Trade receivables	625,956	2,237,605
Other receivables GST receivable	1,025,348 181,798 1,207,146	1,025,282 899,129 1,924,411
	1,833,102	4,162,016

Note 7. Trade and other receivables (continued)

Accounting policy for trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The consolidated entity has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Note 8. Contract assets

	Consol	Consolidated	
	2024 \$	2023 \$	
Current assets Federal Govt grant - NDSS	<u>74,252</u>		

Accounting policy for contract assets

Contract assets are recognised when the consolidated entity has transferred goods or services to the customer but where the consolidated entity is yet to establish an unconditional right to consideration. Contract assets are treated as financial assets for impairment purposes.

Note 9. Assets classified as held for sale

	Cons	Consolidated	
	2024	2023	
	\$	\$	
Current assets Land and buildings	<u>520,52</u>	520,521	

During the financial year, the consolidated entity did not transfer any property to assets held for sale (2023: \$520,521). Whilst the property has not sold in the year, it is still on the market, and the agent has been active in marketing. There is still an expectation that it will be sold within 12 months.

Accounting policy for assets classified as held for sale

Non-current assets and assets of disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continued use. They are measured at the lower of their carrying amount and fair value less costs of disposal. For non-current assets or assets of disposal groups to be classified as held for sale, they must be available for immediate sale in their present condition and their sale must be highly probable. An impairment loss is recognised for any initial or subsequent write down of the non-current assets and assets of disposal groups to fair value less costs of disposal. A gain is recognised for any subsequent increases in fair value less costs of disposal groups, but not in excess of any cumulative impairment loss previously recognised.

Non-current assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of assets held for sale continue to be recognised. Non-current assets classified as held for sale and the assets of disposal groups classified as held for sale are presented separately on the face of the statement of financial position, in current assets. The liabilities of disposal groups classified as held for sale are presented separately on the face of the statement of financial position, in current liabilities.

Note 10. Financial assets at fair value through profit or loss

	Consolidated	
	2024 \$	2023 \$
Non-current assets Managed investment portfolio	19,957,197	18,051,050

Accounting policy for financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or (ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss.

Reconciliations

Reconciliations of the written down values at the beginning and end of the current financial year are set out below:

	Land and buildings	Fixtures, fittings and furniture	Motor vehicles	Computer equipment	Office equipment	Total
Consolidated	\$	\$	\$	\$	\$	\$
Balance at 1 July 2023 Additions Depreciation expense	22,000,000 - (423,485)	883,383 13,239 (240,498)	13,020 - (13,020)	443,409 103,306 (273,501)	4,731 18,884 (7,104)	23,344,543 135,429 (957,608)
Balance at 30 June 2024	21,576,515	656,124		273,214	16,511	22,522,364

Note 11. Property, plant and equipment (continued)

Accounting policy for property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Office equipment 2 - 5 years

Computer equipment 2 - 5 years / remaining term of the contract

Fixture, fittings and furniture 3 - 10 years
Motor vehicles 18.75%
Buildings 30 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

Note 12. Right-of-use assets

	Consoli	Consolidated	
	2024	2023	
	\$	\$	
Non-current assets			
Right-of-use assets	2,734,882	1,693,990	
Less: Accumulated amortisation	(1,441,811) _	(1,283,917)	
	1,293,071	410,073	

Reconciliations

Reconciliations of the written down values at the beginning and end of the current financial year are set out below:

	Right-of-use assets
Consolidated	\$
Balance at 1 July 2023 Additions Write off of assets and adjustments Depreciation expense	410,073 1,334,847 (42,589) (409,260)
Balance at 30 June 2024	1,293,071

Accounting policy for right-of-use assets

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the consolidated entity expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

Note 12. Right-of-use assets (continued)

The consolidated entity has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

Note 13. Trade and other payables

	Consoli	Consolidated	
	2024 \$	2023 \$	
Current liabilities			
Trade payables	3,220,913	4,108,869	
Accrued Expenses	3,395,157	3,603,948	
GST payable	-	687,995	
Other payables	380,961	258,871	
	6,997,031	8,659,683	

Accounting policy for trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Note 14. Employee benefits

	Consol	Consolidated	
	2024 \$	2023 \$	
Current liabilities Annual leave Long service leave Payroll provision	2,207,607 874,875	2,159,331 740,734 17,446	
	3,082,482	2,917,511	
Non-current liabilities Long service leave	290,794	367,432	

Accounting policy for provisions

Provisions are recognised when the consolidated entity has a present (legal or constructive) obligation as a result of a past event, it is probable the consolidated entity will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

Accounting policy for employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Note 14. Employee benefits (continued)

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Note 15. Membership fees received in advance

	258,382	966,245
		333,213
	3,290,400	13,272,390

Accounting policy for contract liabilities

Contract liabilities represent the consolidated entity's obligation to transfer goods or services to a customer and are recognised when a customer pays consideration, or when the consolidated entity recognises a receivable to reflect its unconditional right to consideration (whichever is earlier) before the consolidated entity has transferred the goods or services to the customer.

If conditions are attached to the grant which must be satisfied before the consolidated entity is eligible to retain the contribution, the grant will be recognised in the statement of financial position as a liability until those conditions are satisfied.

Note 17. Lease liabilities

	Consolidated	
	2024 \$	2023 \$
Current liabilities Lease liability	283,280	386,487
Non-current liabilities Lease liability	1,015,213	50,694
Future lease payments		
Future lease payments are due as follows: Within one year One to five years More than five years	266,697 1,179,785	366,726 33,751
	1,446,482	400,477

Accounting policy for lease liabilities

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the consolidated entity's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

Diabetes Australia Ltd and its Controlled Entities Directors' declaration 30 June 2024

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Australian Accounting Standards
 Simplified Disclosures, the Australian Charities and Not-for-profits Commission Act 2012, the Charitable Fundraising Act 1991 (NSW) and associated regulations, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 30 June 2024 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and
- internal controls are appropriate and effective in accounting for income received and applied from any fundraising appeal.

Signed in accordance with a resolution of directors made pursuant to section 60.15(2) of the Australian Charities and Not-for-profit Commission Regulation 2022.

On behalf of the directors

INDEPENDENT AUDITOR'S REPORT

To the members of Diabetes Australia Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Diabetes Australia Limited (the registered entity) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, and the responsible entities' declaration.

In our opinion the accompanying financial report of Diabetes Australia Limited, is in accordance with Division 60 of the Australian Charities and Not-for-profits Commission Act 2012, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2024 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards Simplified Disclosures and Division 60 of the Australian Charities and Not-for-profits Commission Regulations 2022.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Australian Charities and Not-for-profits Commission Act 2012 (ACNC Act) and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The responsible entities of the registered entity are responsible for the other information. The other information obtained at the date of this auditor's report is information included in the Diabetes Australia Limited's Directors' report but does not include the financial report and our auditor's report thereon.

BDO Audit Pty Ltd ABN 33 134 022 870 is a member of a national association of independent entities which are all members of BDO Australia Ltd ABN 77 050 110 275, an Australian company limited by guarantee. BDO Audit Pty Ltd and BDO Australia Ltd are members of BDO International Ltd, a UK company limited by guarantee, and form part of the international BDO network of independent member firms. Liability limited by a scheme approved under Professional Standards Legislation.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of responsible entities for the Financial Report

The responsible entities of the registered entity are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards—Smplified Disclosures and the ACNC Act, and for such internal control as the responsible entities determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, responsible entities are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the responsible entities either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The responsible entities of the registered entity are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (http://www.auasb.gov.au/Home.aspx) at:

http://www.auasb.gov.au/auditors responsibilities/ar3.pdf

This description forms part of our auditor's report.
